

CURRENT CLIENTS/CAMPAIGNS

Antioch College, Yellow Springs, OH

Retained planned giving support is helping this iconic well-known undergraduate college find the resources to reopen.

The Center for Enriched Living, Riverwoods, IL

Retained campaign counsel is underway to help The Center raise \$3 million to make capital improvements to its facility, establish an endowment fund and build a modest fund for innovative programs for the developmentally delayed children and young adults who are served by the Center. The campaign follows a feasibility study.

Edward Foundation, Naperville, IL

A development audit led to a board self assessment that prepared this Chicago area hospital for a feasibility study that led to a successful \$3 million capital campaign for a new Cancer Center. Retained planned and major gift counsel is now being provided, and campaign counsel is being provided to raise major gifts for pediatric critical care programs.

WateReuse Research Foundation, Alexandria, VA

A national feasibility study is underway testing the ability of this association-related foundation to raise private philanthropic funds that will support research on improvements to water treatment and desalination projects worldwide. The study will lead to the establishment of a comprehensive fundraising program that will attract sustainable, renewable annual financial support from a blend of private, public and corporate sources.
